Add Reply Cancel Reply. I would love to see this in English. it would be awesome. Reply. cool. I have no way of uploading that file to you. i'll see what i can do though Reply. Download: Empire Total War Mod Napoleon (UPC-NAP). December 8, 2004, 03:32 AM,, the financial world, interest rates are often the subject of great debate. Although many investors treat interest rates as a black-or-white concept, in fact, interest rates are almost always a range of numbers. For example, two people may have two different interest rates at their disposal to invest in bonds: \$8,000 for a 5% rate and \$9,000 for a 10% rate. Such a wide range of possibilities is what makes it so difficult to predict the future of interest rates. And yet, very little of the decision making process is based on anything other than gut instinct. Whether or not the fundamental economic components that drive interest rates are right, the affect the market is having on your portfolio is enough to make you look for new ways to invest. Here are a few ways that investors are utilizing interest rates to their advantage. The Interest Rate Swap Interest rate swaps are one way in which you can influence interest rates. A swap is a trade in which two parties agree to swap a certain amount of money at a future date. The two parties will both agree to pay or receive interest at the same or different rate. When you participate in a swap, you are effectively locking in interest rates, allowing you to control the rate that your money is making. An interest rate swap is ideal for any investor who doesn't want to be locked into an interest rate. If interest rates rise, the interest rate swap can allow the investor to keep their money in cash. However, if interest rates fall, they can transfer the money into bonds or into other instruments with higher rates. By using an interest rate swap, you can invest in money that is making money, and it also helps you stay ahead of the market when interest rates change. The amount of money that you lock in is completely up to you. 4bc0debe42
