
Xilinxlicensegenerator

With a Design Edition license, you will not be able to use System Generator for DSP. For floating or node-linked licenses, node-linked licenses are file-bound. cab (encrypted .cab files are part of the license, so without the .cab file the license will not work).

Floating licenses, as a rule, are tied to a physical medium (CD, DVD), and in some cases to a specific computer, and if the license is damaged or lost (for example, if a disk drive or system unit is broken in the office), then the license will disappear, and you will not be authorized to use the DSP.
