On September 9th, 2013, the Arctic Monkeys released their album "AM", which made a splash. When the dirty riffs of the opening song "Do I Wanna Know?" (the "Do I want to know?" version), accompanied by a ukulele solo, finally replaced by guitar riffs, I realized: this is for me. But when the song ended, I did not wait for the second part, but returned to my business. I felt somehow embarrassed, as if I had been caught in an unseemly deed. Well, what are you, I'm not some kind of art fan who doesn't know that "AM" is the name of their album. I'm just a fan who missed a few songs. "AM" is the name of their new album. Ah, well, yes. Yes, sure. I Know.
